

How to change your dialer Windows 95 - 98 - Me

Start at your Windows desktop

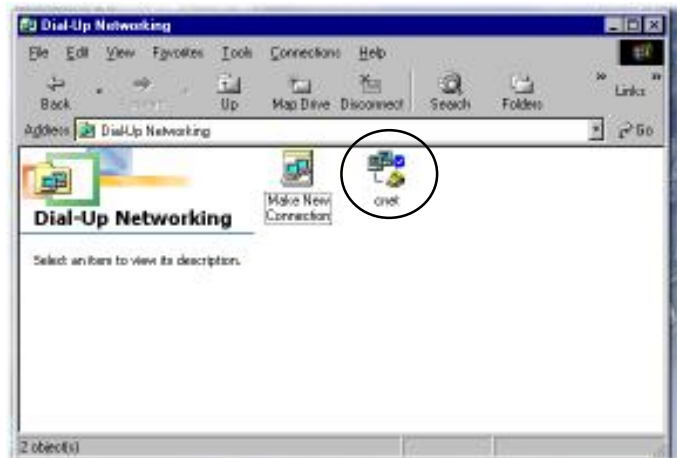

Double-click My computer

Look for a dialup networking folder
And double click it

Windows Me users click here

Right click on your old dialer
And choose DELETE
It may be named My Connection

You can name your dialer MAX
(or leave it as My Connection)

Set the phone number to 996-6817
Click FINISH on the next screen and
you've made your new dialer.

You'll need to re-enter your name and password next time you
log onto the Internet, it will be blank.
